

BLACK DRAGON

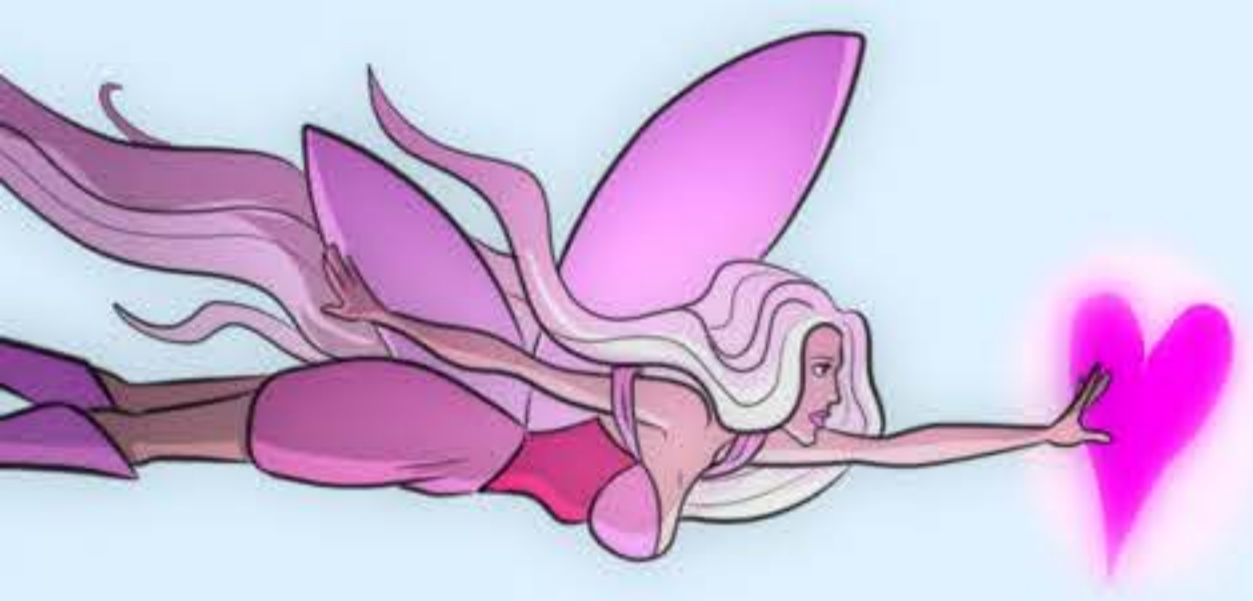

AND

Pink Firefly

A2 HEROES

ISSUE
2

This comic book is 100% FREE. Distribute it widely to all of your friends, social media followers, family, customers or whomever you think would enjoy this. The more people who read this the more likely we are to do more issues!

Well, here we are, the second issue of Black Dragon and Pink Firefly. Now that the first issue is behind us, I can now focus on developing a long-term story arc for this tale and the characters in it.

On May 18th, 2022, at A2Heroes.com we will have our NFT auction where you can get things like one-on-one coaching from me (unavailable anywhere else), exclusive events (both virtual online events AND real-life events) in various places all over the world only available to NFT holders, and many other special goodies attached to the A2Heroes line of NFTs.

So make sure you have some Ethereum, make sure you have the Metamask wallet installed into your browser, and head over to A2Heroes.com right now to pick out which NFTs you would like, all based on characters in this comic book and attached to real-world services and events to help you improve both your business/financial life as well as your woman life. Then on May 18th bid for the NFTs you want... there are only limited quantities so it's first-come, first-bid, first served.

If we sell enough NFTs, we'll continue to do more FREE issues of Black Dragon and Pink Firefly. And if we don't, well, then we won't do any more of these. If you like this comic and want to see more issues in the future (I have an entire story line planned for at least 20 more issues) get your NFTs on May 18th and send out this comic book to as many people as you can. It's free and 100% distributable.

SHIBOLOTH FOREST, a dark and dangerous place where few people dwell. Three forest trolls return home after their latest attack, heavy with spoils...

Fuck yer sword! I'm gettin' me a new set of knives! Razor sharp! Gonna carve up me some humans! Dwarves! Gnomes! Maybe even an elf or two!

Shaddup you idiots! Don't speak of things you know nothin' about!

I completely agree!

SLOW!

Yeah. Me too.

What the hell?!?

I'll be taking your friend's gold now. You can carry on doing... oh, whatever the hell you were doing. Or you can attack me and I can kill you. Whatever floats your boat.

RRRRAAAHHH!!!

RRR... huh?

Aaaaannnd thank you for your contribution to the Black Dragon's Keep In The Mountains Fund.

Now we have three bags of gold instead of one! Trolls sure are friendly!

And I didn't get any blood on my dress this time! Yay!

Well THAT certainly puts my mind at ease. And to think I was excited about the gold...

Oh my goodness! Butternut! That's gross! Don't do that!

Ah, let him slurp it up. You like troll's blood, don't you Butterballs? Bon appetit. Little bastard.

Bad doggie, Butternut! That kind of thing isn't right!

You mean like, oh I don't know, murdering a king right in his own throne room?

He didn't mean to do that. Did you, Butternut?

Yeah right. Whether he meant it or not, thanks to your dipshit dog we're wanted criminals in this kingdom. But at least now we have more than enough coin to book passage on a ship to traverse the Strait of Gales to the Kingdom of Xorath. The Queen has no power there.

Are we going back to Jeslam Port then?

No. We'll be arrested forthwith. Instead, we'll have to keep going west, through this forest. Several small towns lie on the other side. We can find a ship at the first one we come across.

Some time later...

This forest is dangerous! Evil creatures are near, Black Dragon!

Great! They just better not touch my gold.

Look! We're in luck! An inn!

It doesn't look very safe...

It's an inn! What harm could befall us there?

Bandits, rapists, orcs, goblins, goblin rapists...

Hello everybody!

Huh. Popular place.

Whatdya want?

Room for two, please! And dinner. Do you have any chicken? Like with a nice butter sauce...

We ain't got no chicken here. Just jerky.

That would be fine, good sir.

Wait. No chicken? That's bullshit.

Food here has been scarce since the hobgoblins invaded this forest.

I knew it! Rapist goblins!

Your little companion looks like she has some magic about her too. If you were to take care of these hobgoblins, I'd certainly reward you!

Now hold on there, mister! You seem like a competent warrior who's seen his share of killin'.

Since then, food, grain, horses, and other goods have all been intercepted by those devils. What few good folk who used to dwell in these parts now stay far away. I'm going to be run out of business soon!

Yeah so anyway, we'll take that room and if you could send up the jerky that would be great.

You've got to be shitting me. Reward me with what? Extra jerky?

With THIS!

Pink Firefly, are those coins real?

Yes! They are quite real!

Well ho-ly shit Mr. Dwarf! You have a deal! I'll be back with the heads of those hobgoblins this very night!

Yep! Right now! You must seize life by the balls and make it your whore, Darling!

Wait... tonight? Right now?

Can we make it our whore tomorrow morning? I need to shampoo my hair.

Don't be a fairy. Soon we'll have so much gold you'll be able to shampoo Runty's whole body seventeen times over.

According to that dwarf, the hobgoblins' hideout is about another half an hour away. When we arrive, you'll turn human-sized and creep around the back, causing a distraction. Then Carl and I will slay them. Some may retreat, but I don't care.

Some time later, deep in the forest...

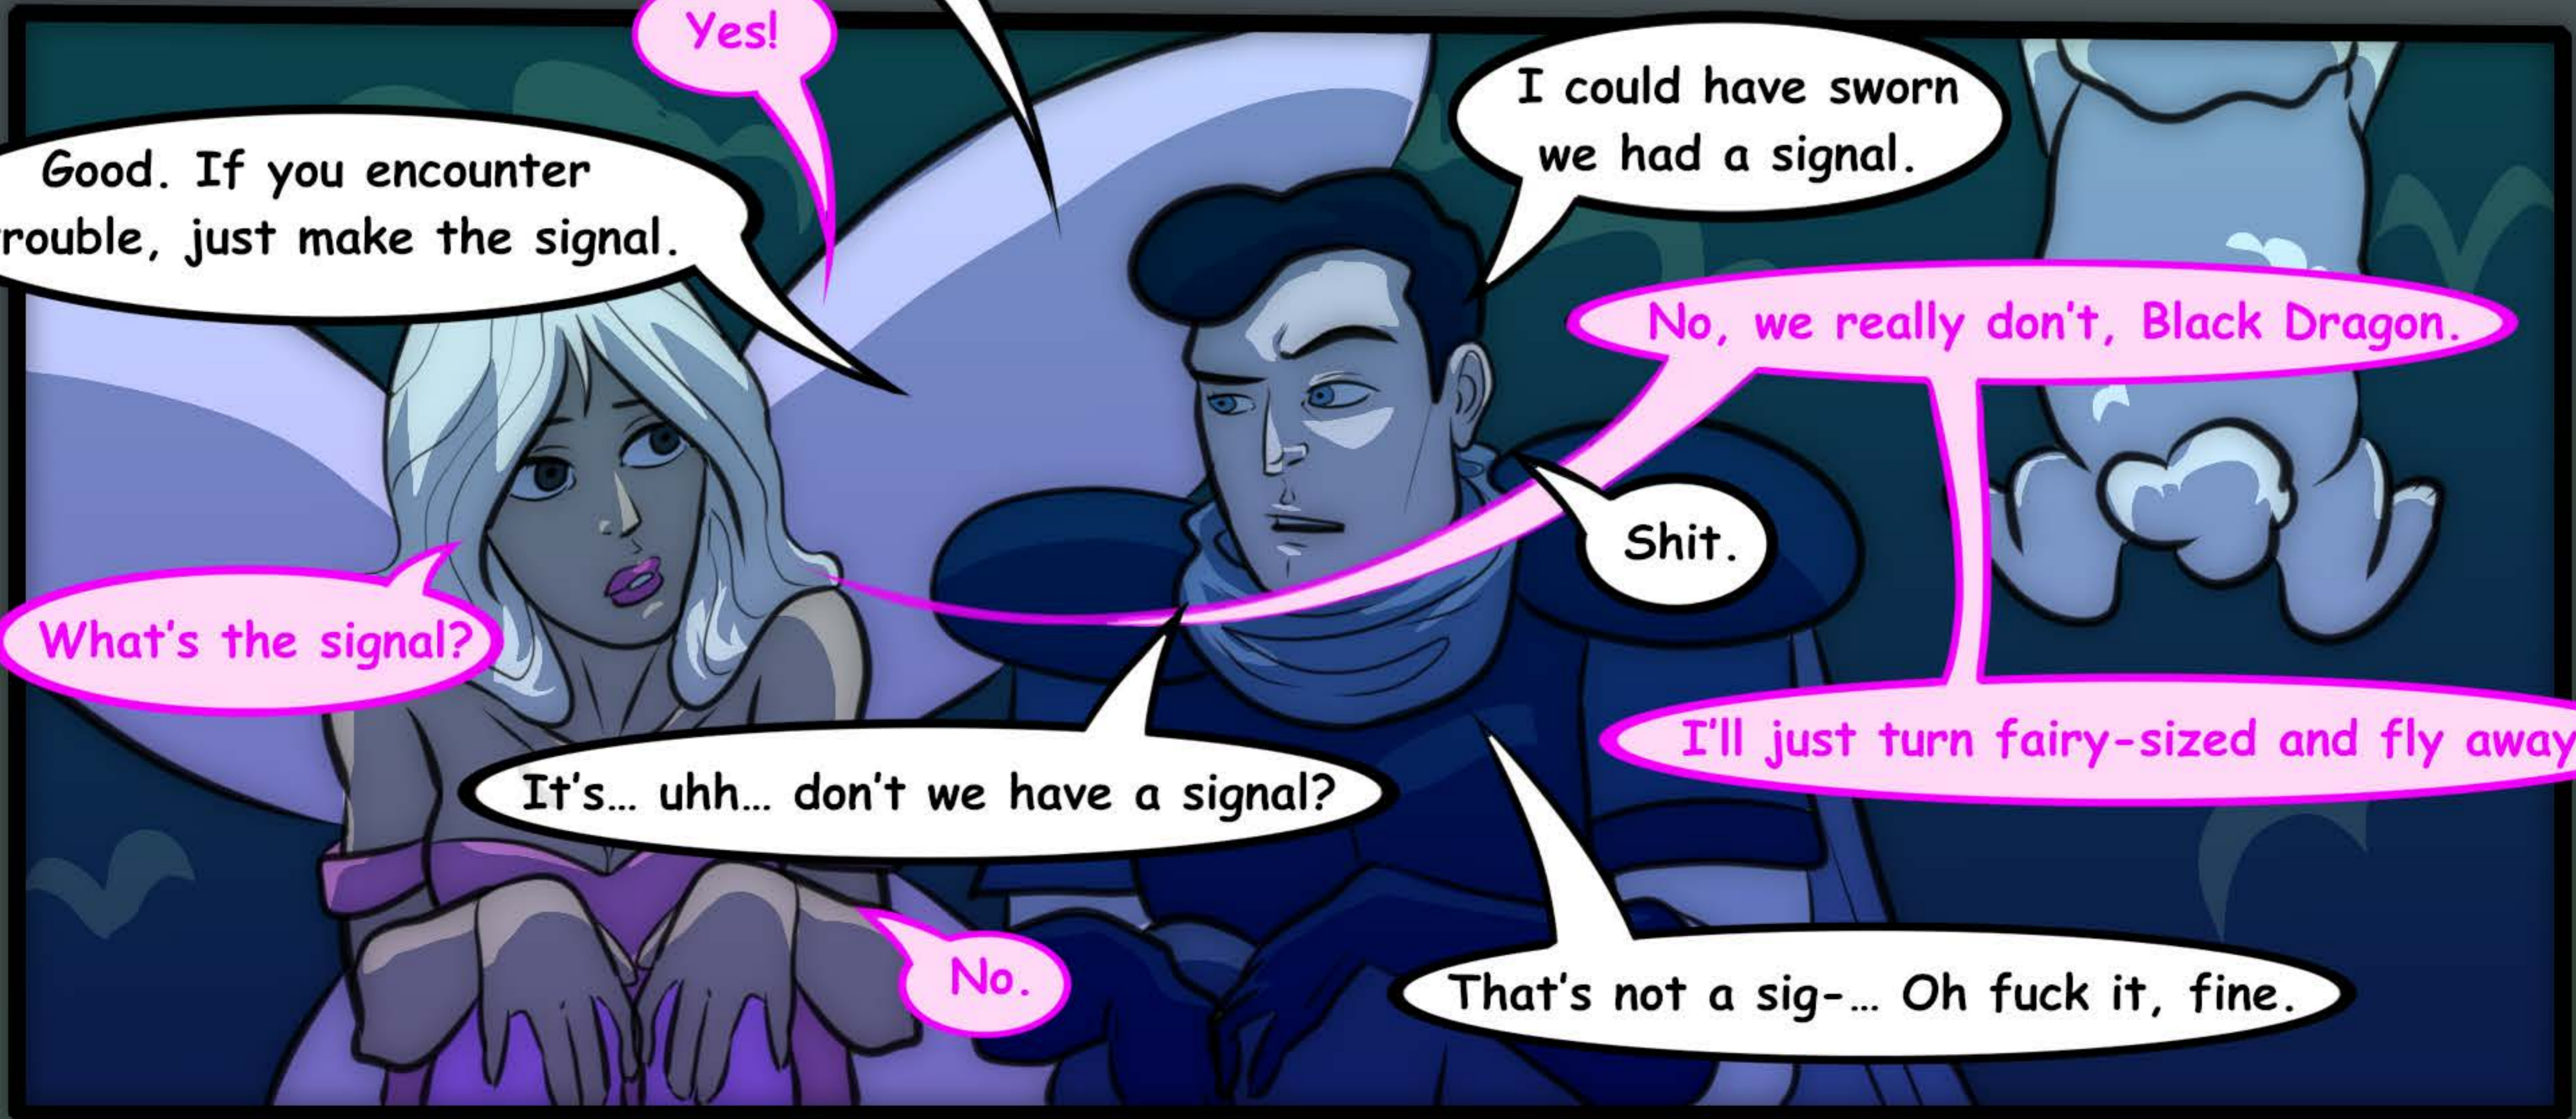

Arf!

Shut that dog up before I drop-kick it into that bonfire.

He's just excited!

Do you know what you need to do?

Yes!

Good. If you encounter trouble, just make the signal.

I could have sworn we had a signal.

No, we really don't, Black Dragon.

What's the signal?

Shit.

I'll just turn fairy-sized and fly away!

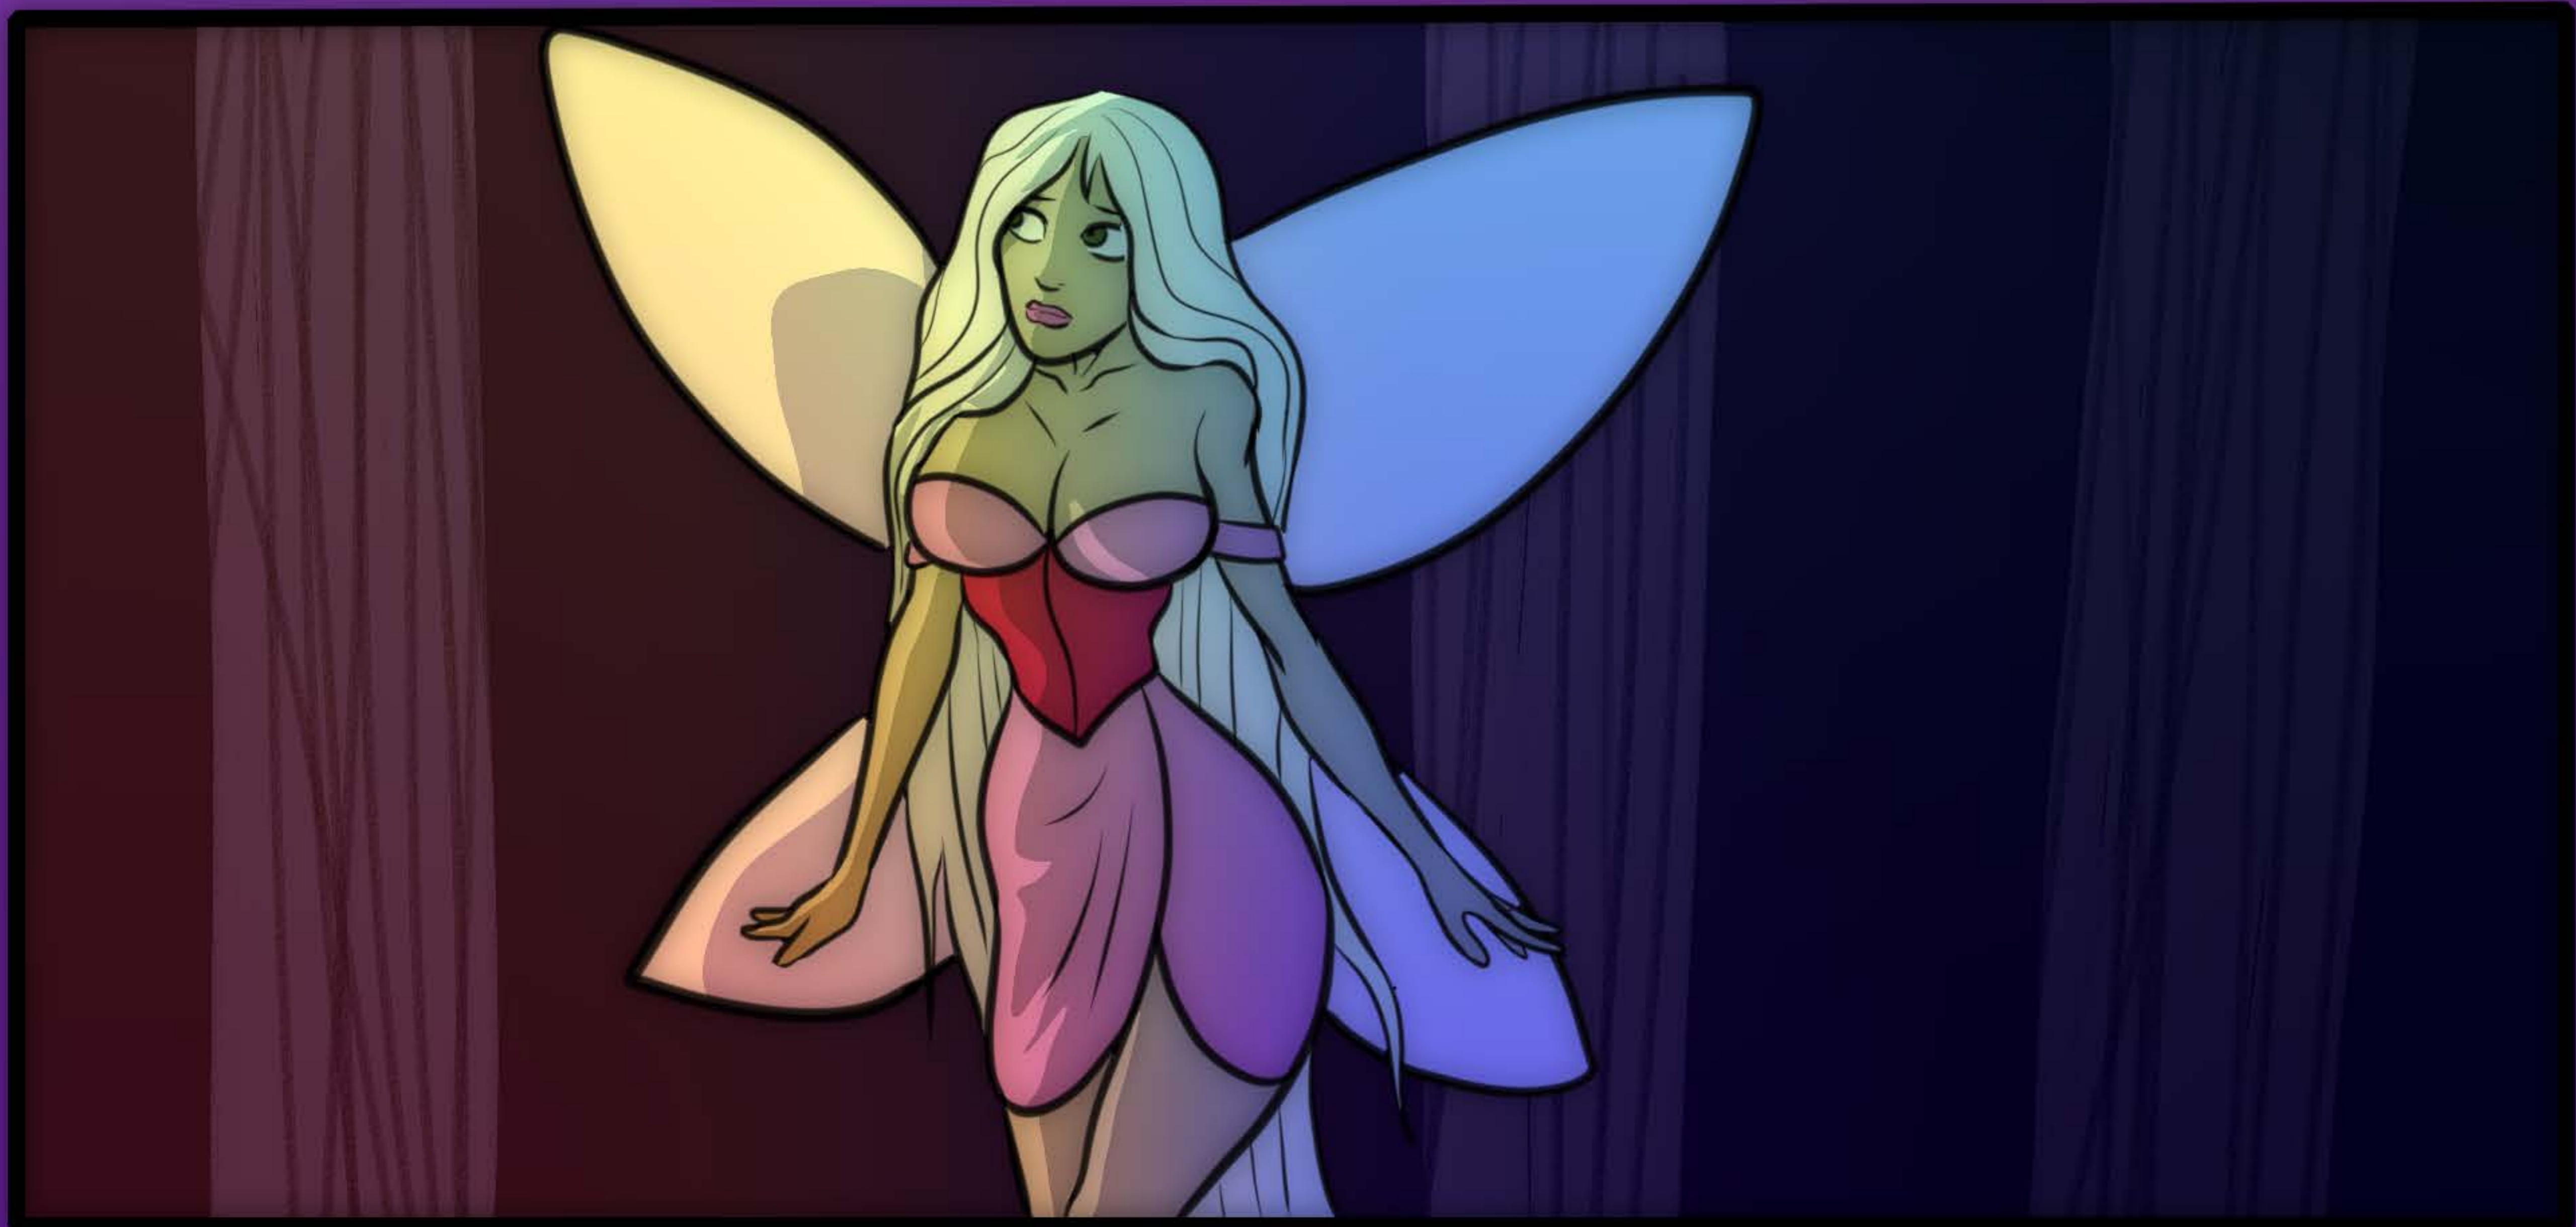

It's... uhh... don't we have a signal?

No.

That's not a sig-... Oh fuck it, fine.

Wait. I forgot to tell you something.

You ready to murder some hobgoblins, Carl?

Sweet.

DURRR!!!

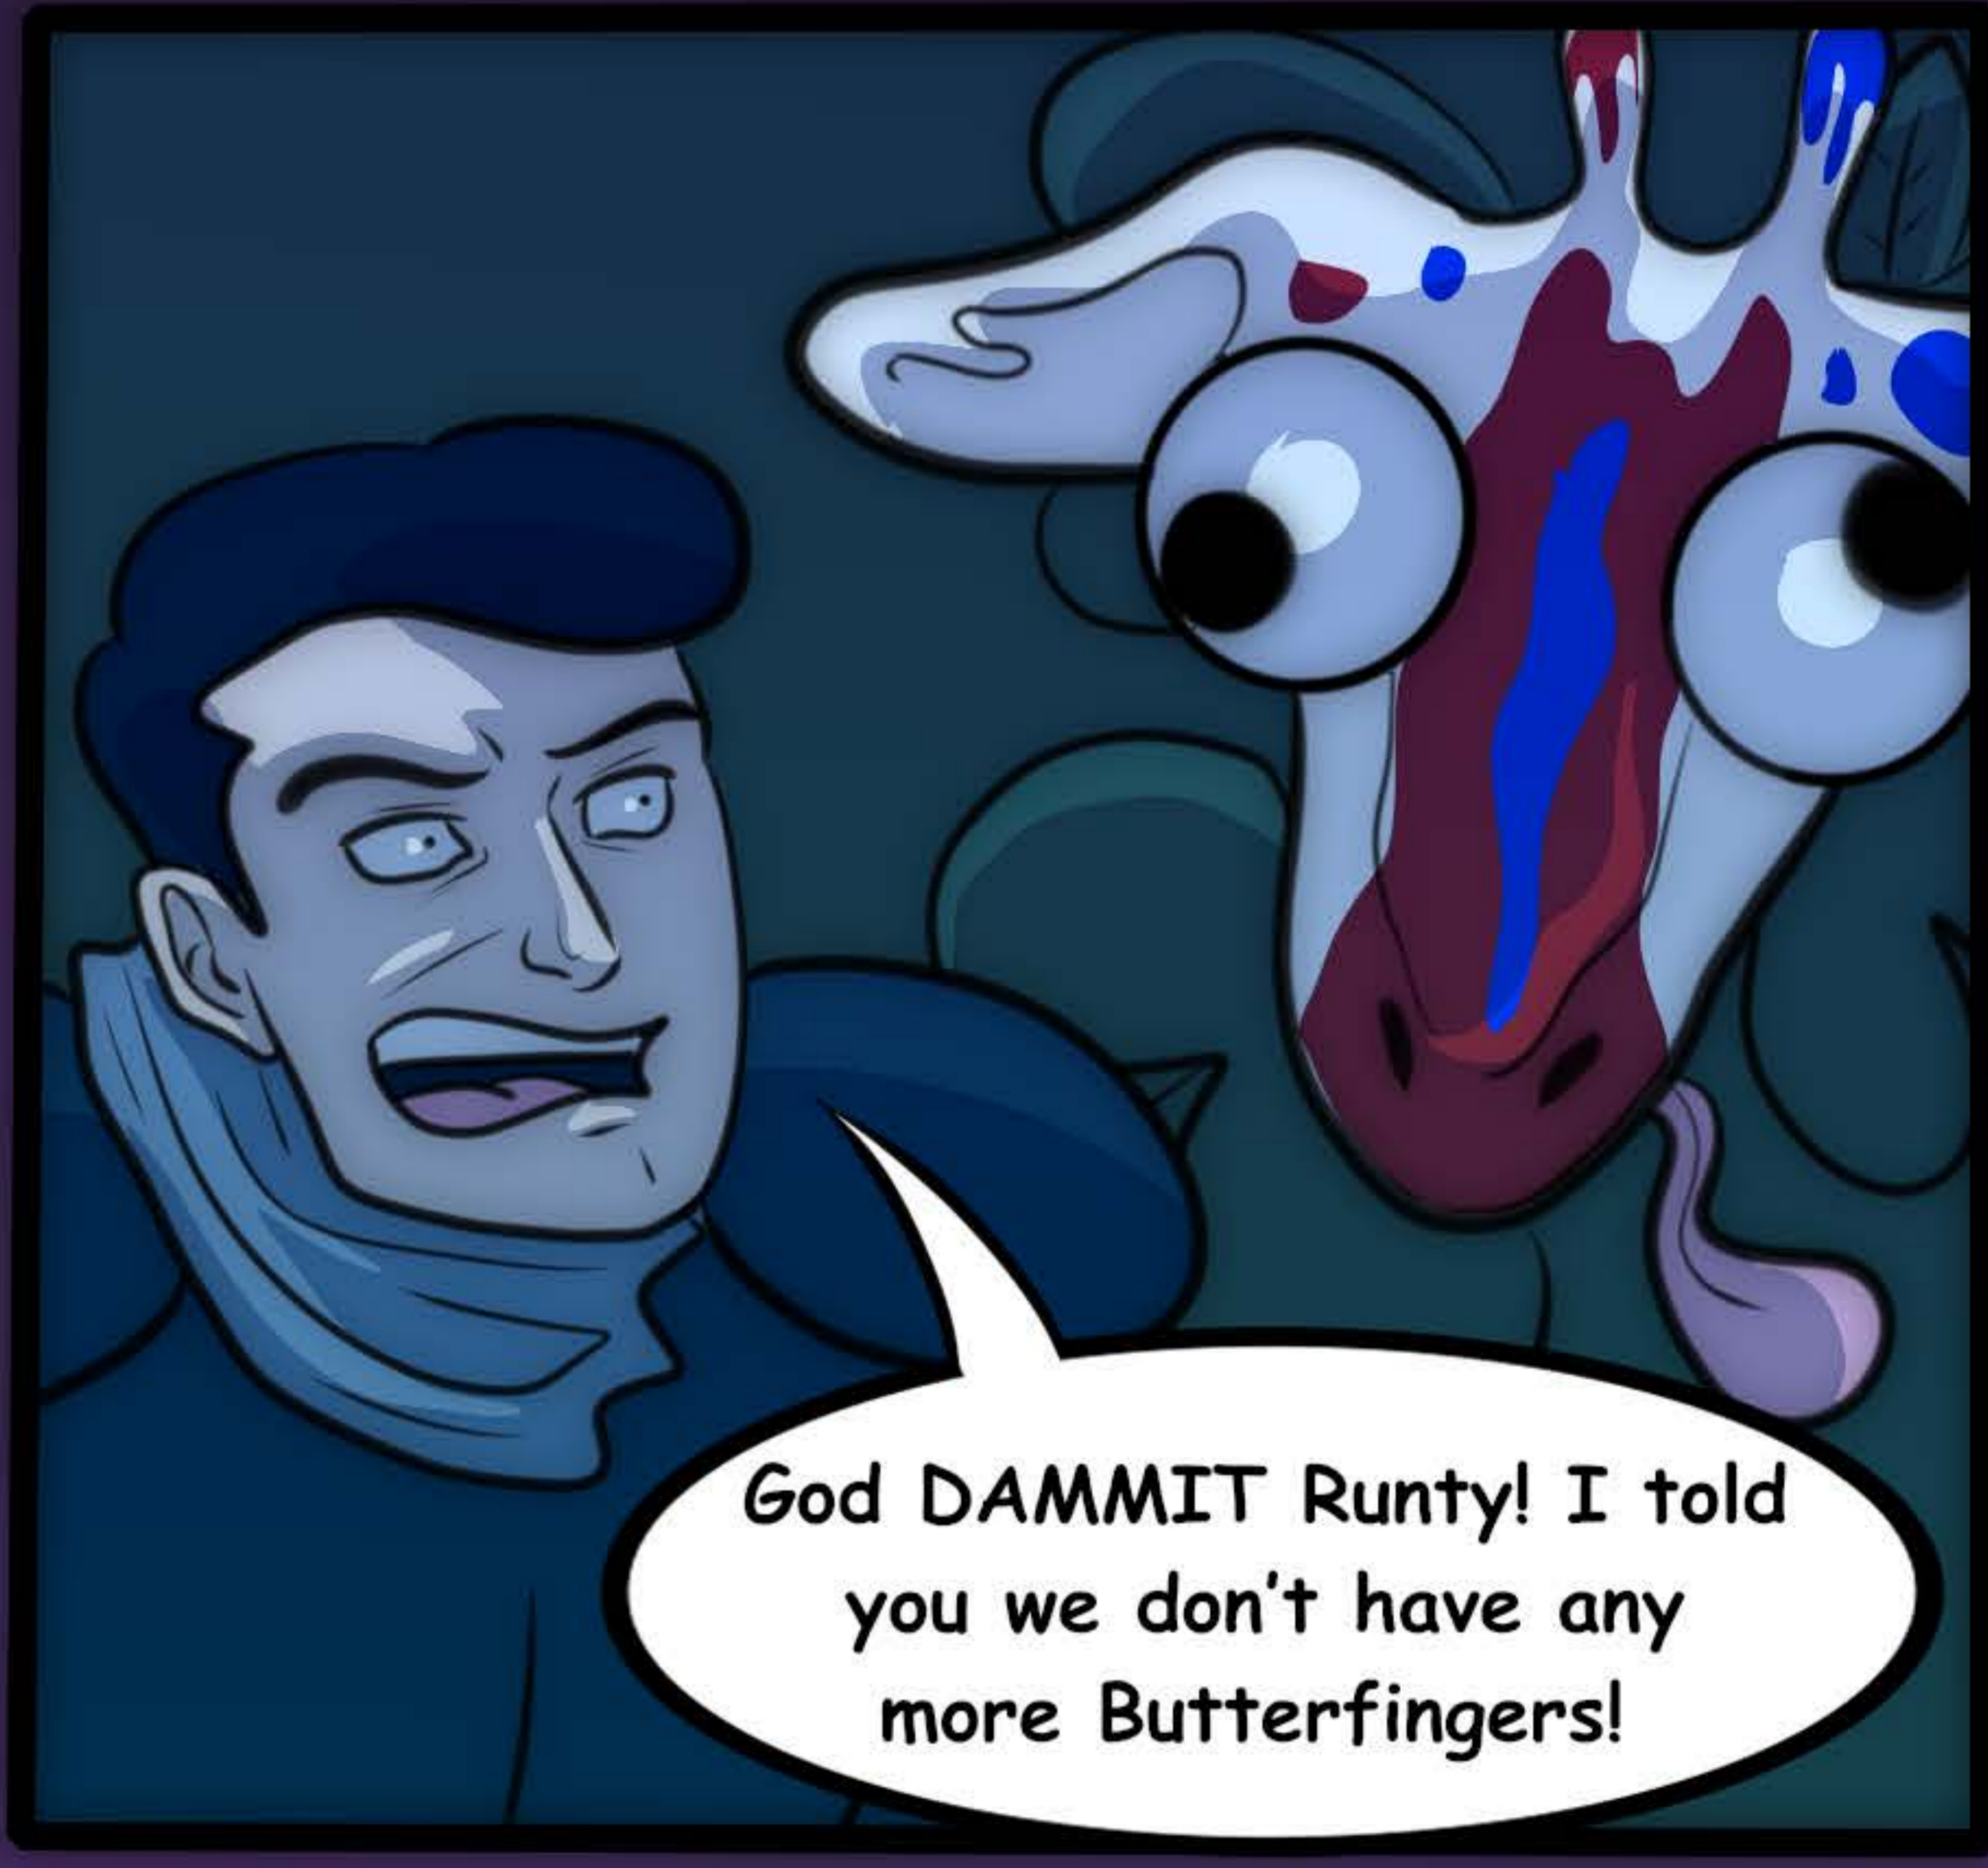

AAAAHHHHH!!!

What the fuck?

What sorcerer?

The evil sorcerer who recently conquered this forest and killed most of its inhabitants. We are mercenaries sent by the Queen to slay him. Alas, now we have failed. But that's okay!

What does this sorcerer look like?

He's a tall man, dressed all in black. But usually, he takes on the guise of an old dwarf.

Some time later...

Front and center, "Dwarf!" I would have words with you!

Ah! The brave warrior returns! Have you disposed of those vile hobgoblins?

Now that's an interesting word... "vile." You know what's "vile?" A piece of shit sorcerer who takes on the guise of a dwarf in order to fool a kind and innocent man like myself...

<giggle>

...shut up...

...in order to eliminate his rivals so he can solidify power over a forest he has no right to in the first place. Rivals, I might add, who were sent by the Queen, as if we don't have enough problems with that bitch already.

What? Nothing to say? Yeah, thought so motherfucker.

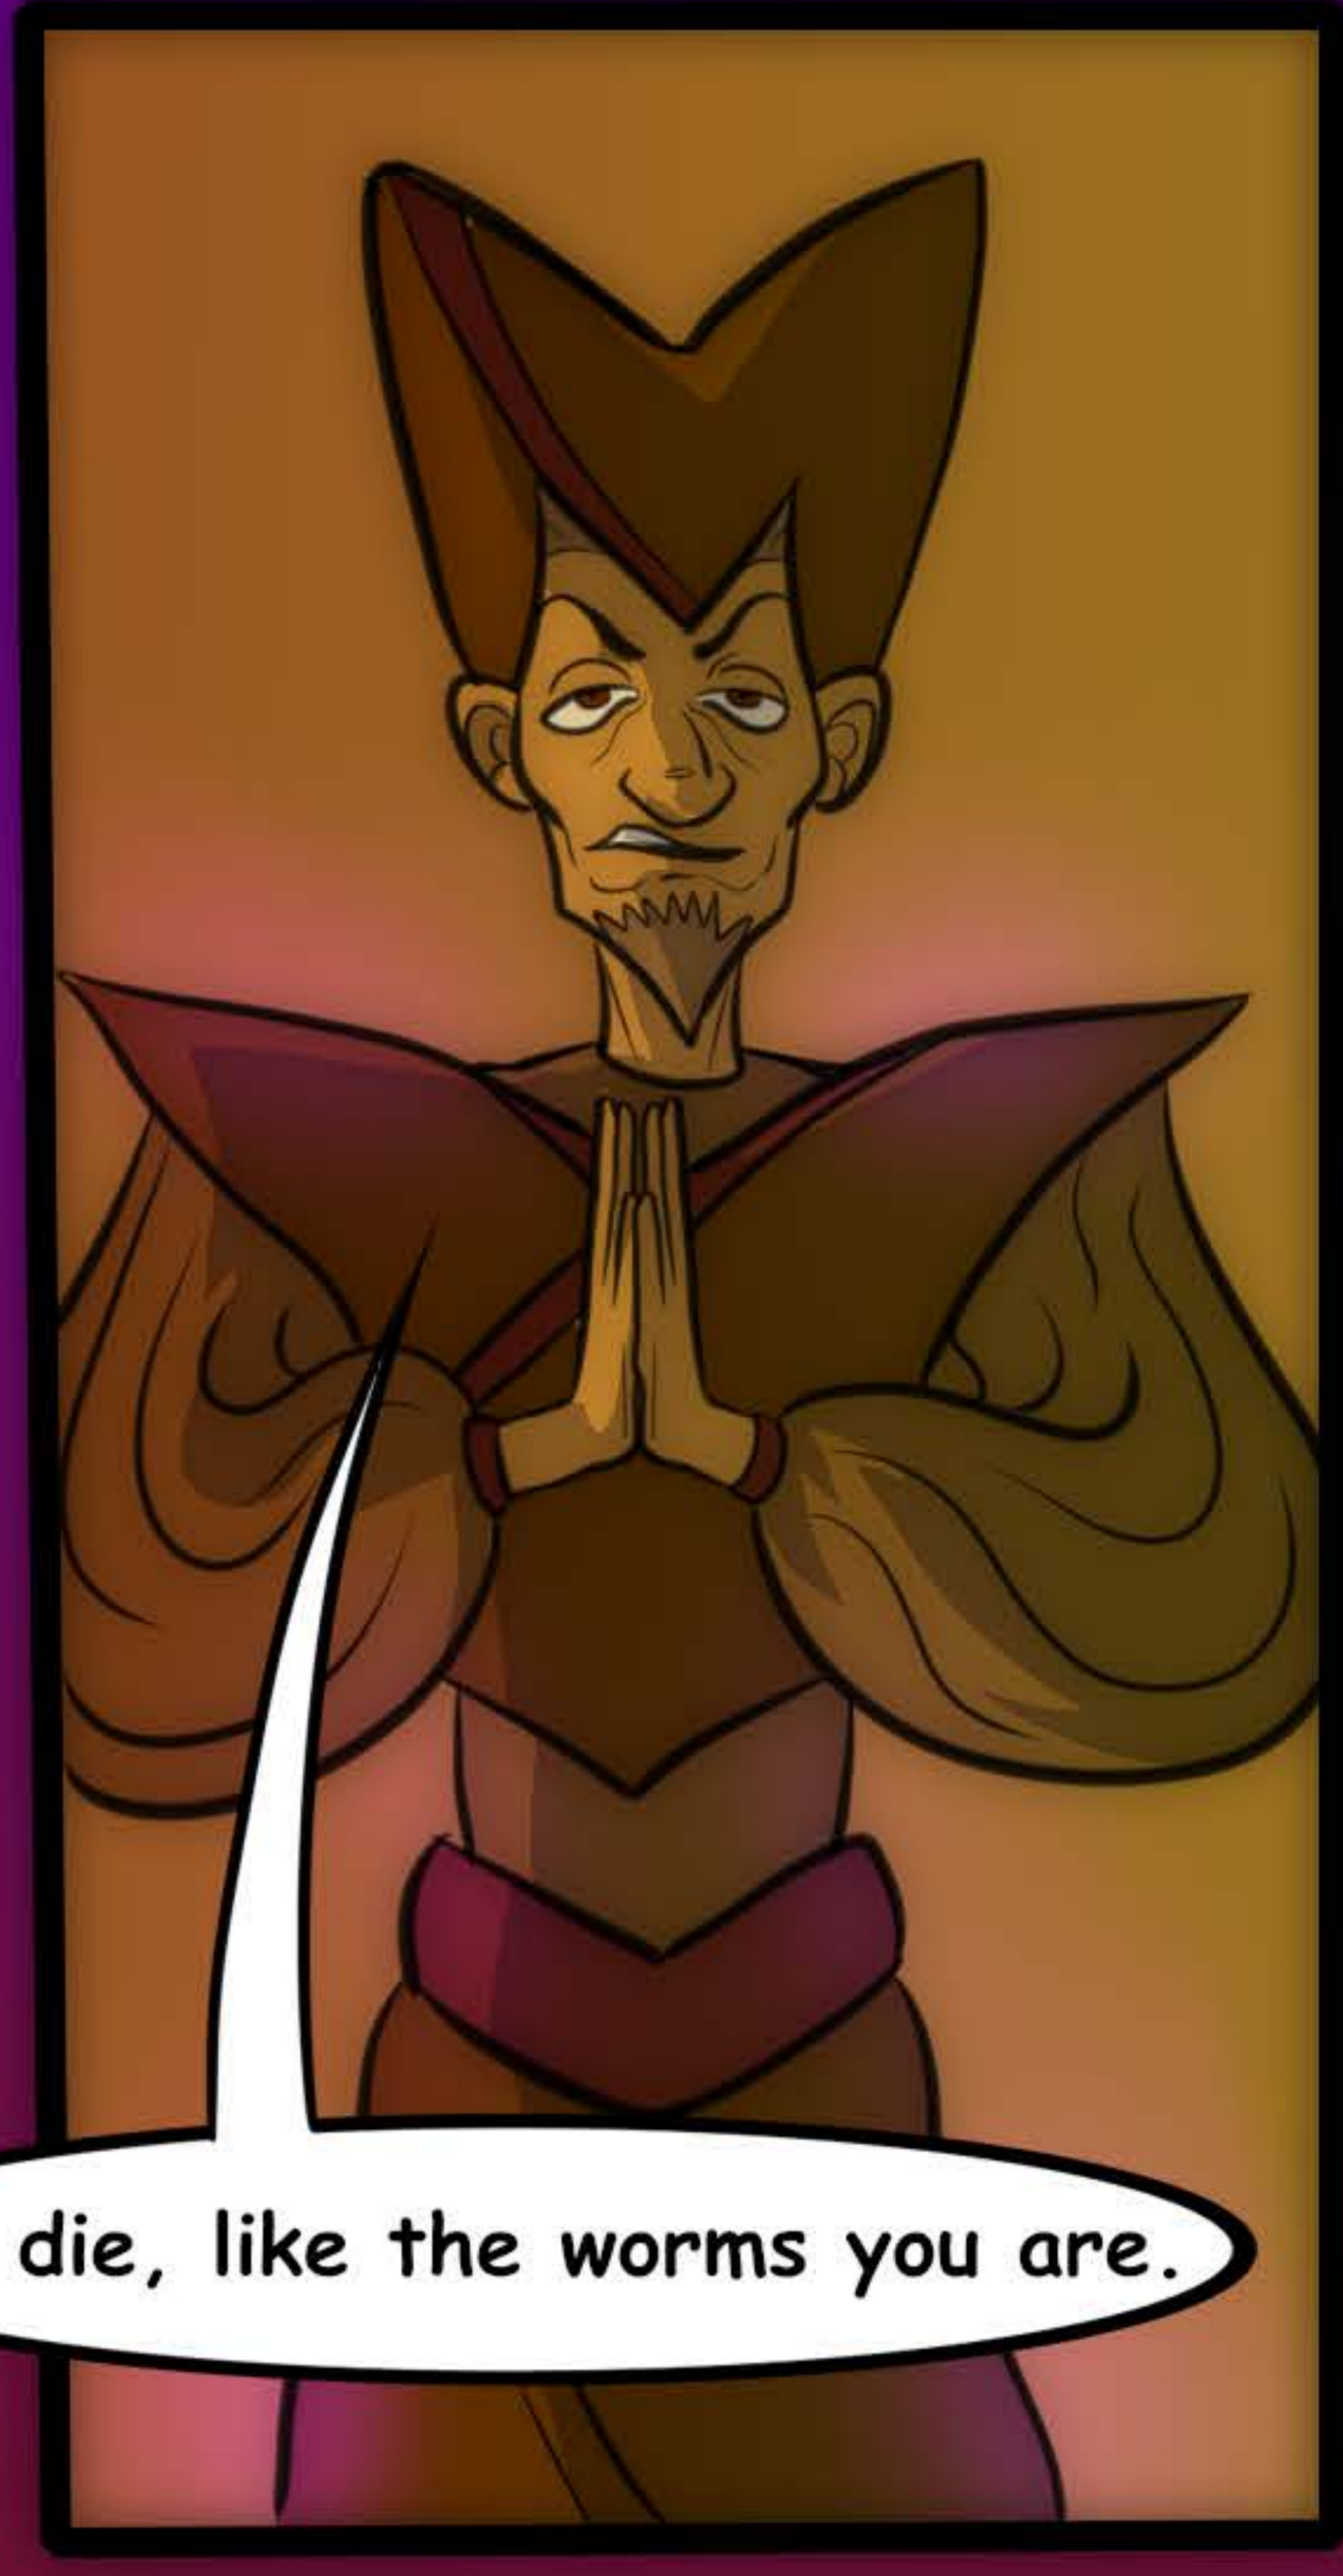

I see now there is no further need for this charade.

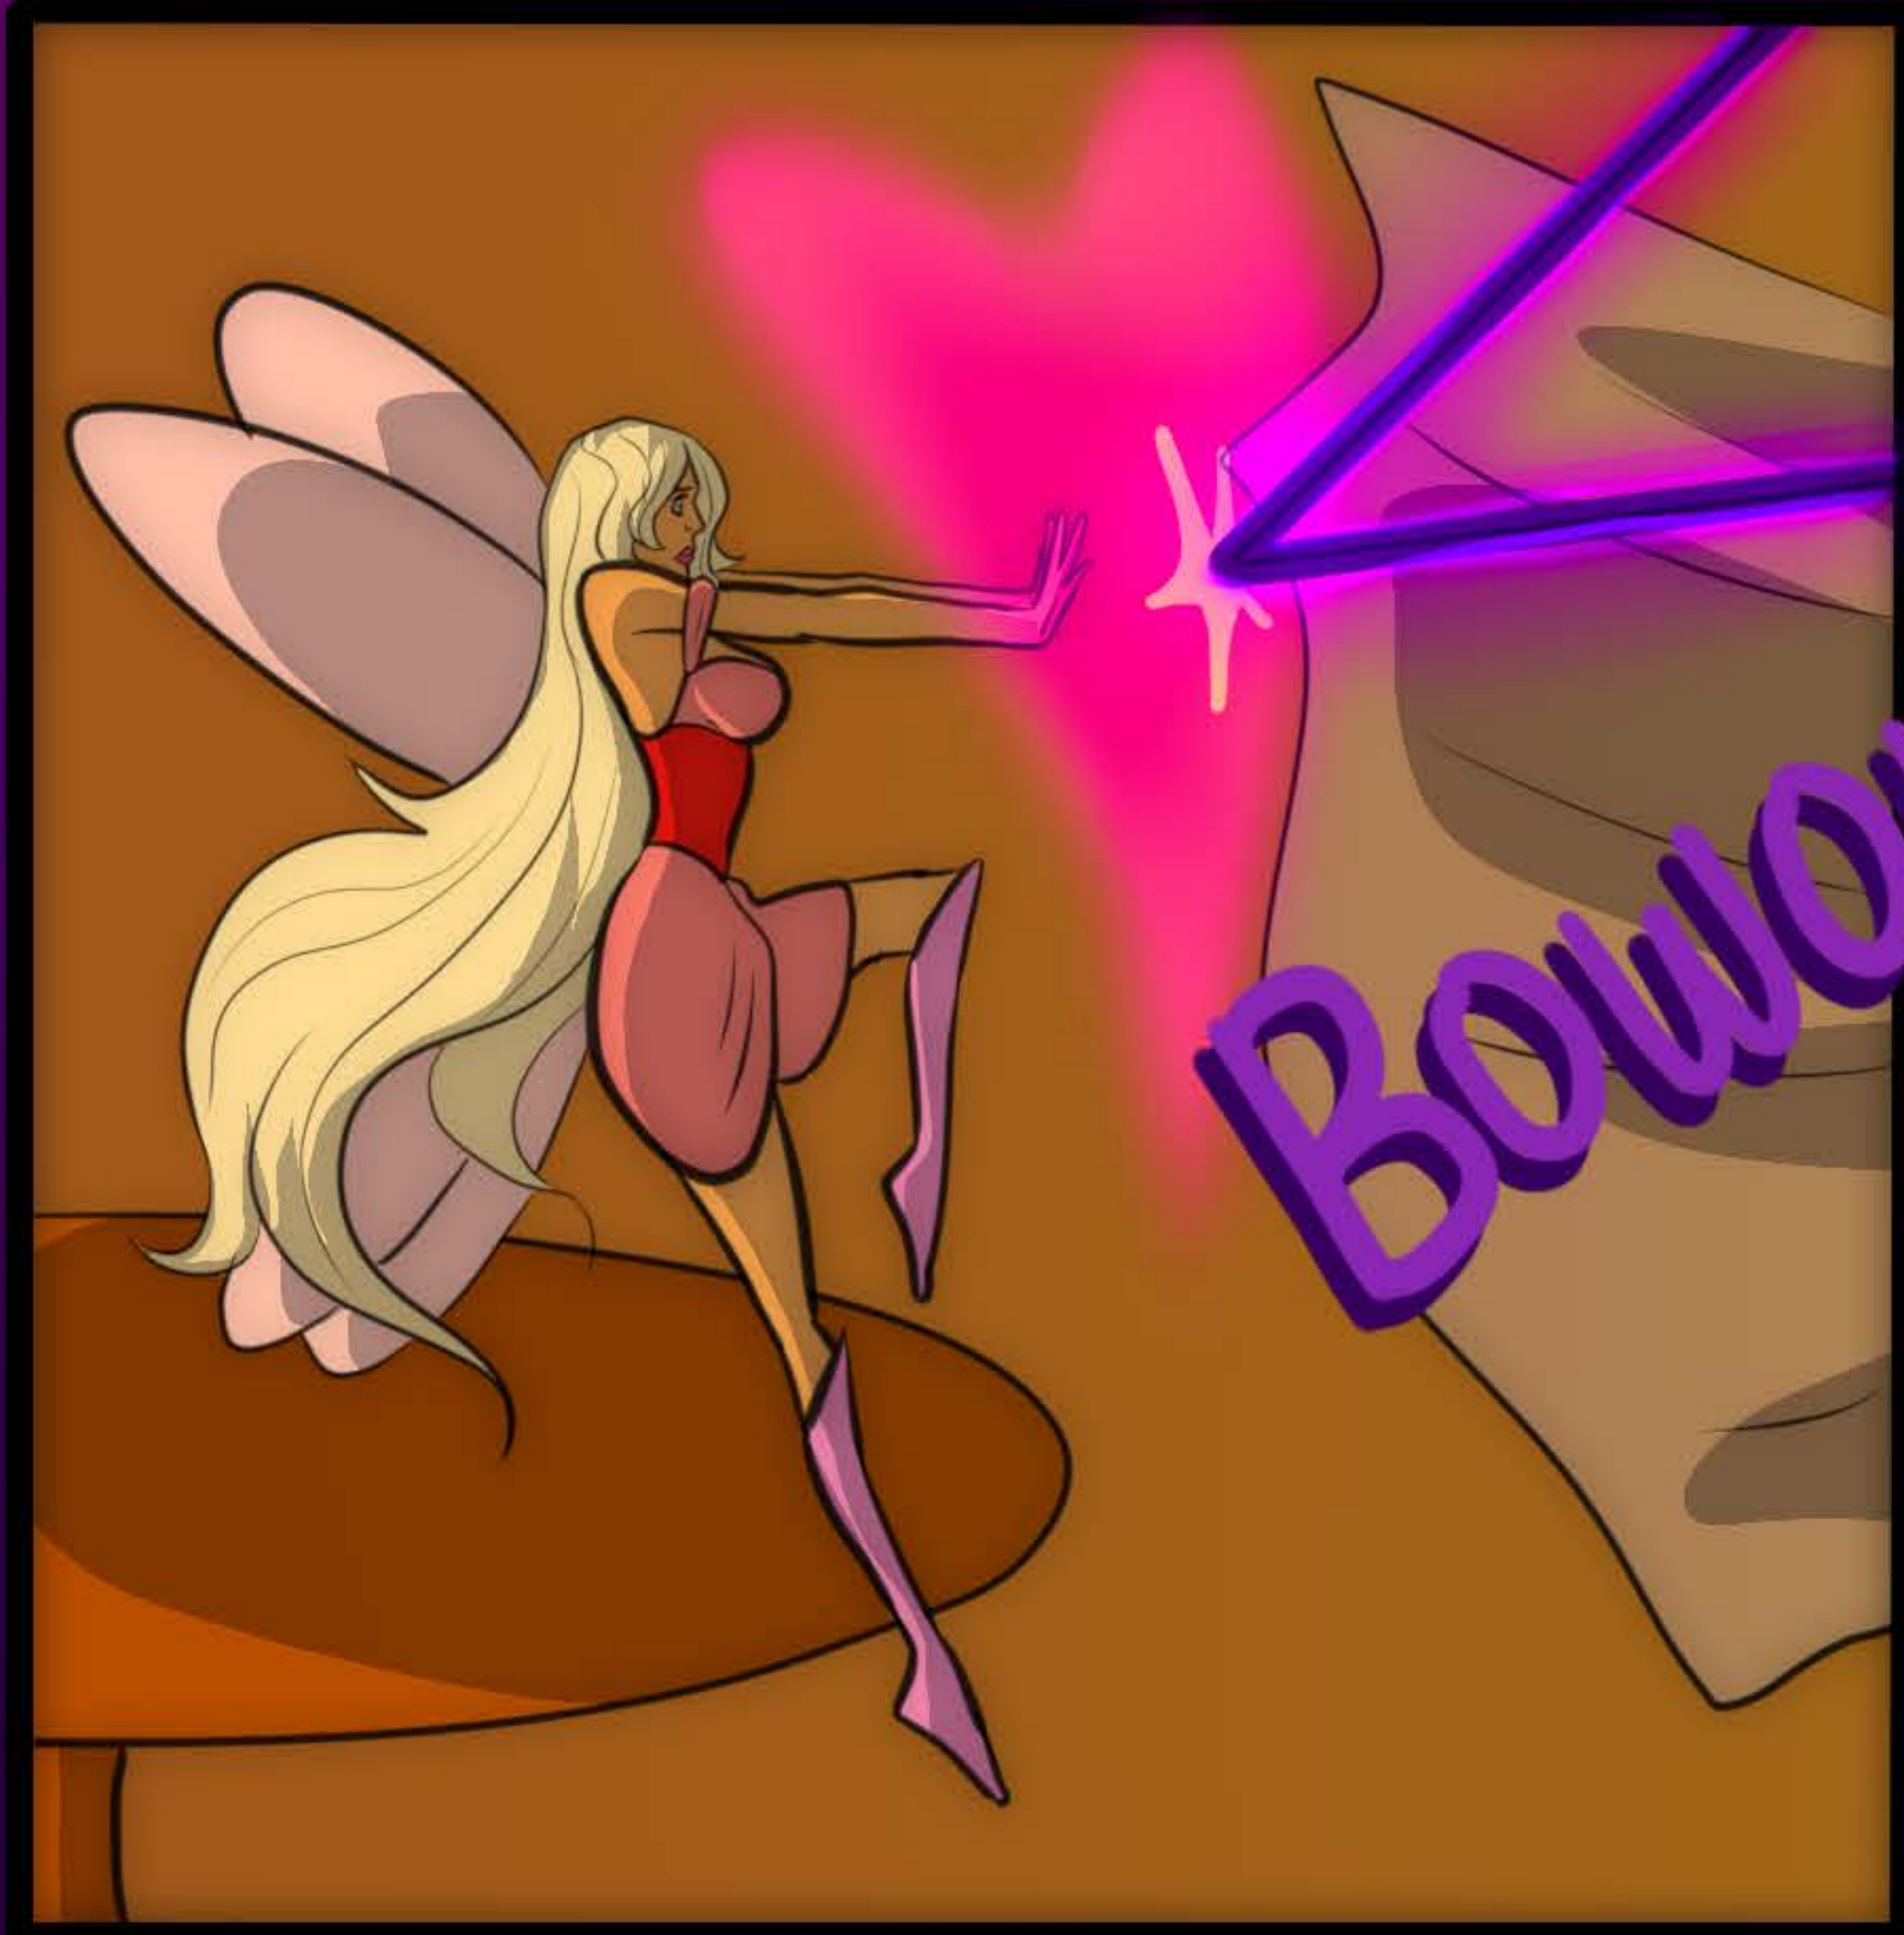

You fools have served your purpose and have but one left...

...to die, like the worms you are.

YOU are going to threaten ME? Wearing that hat?

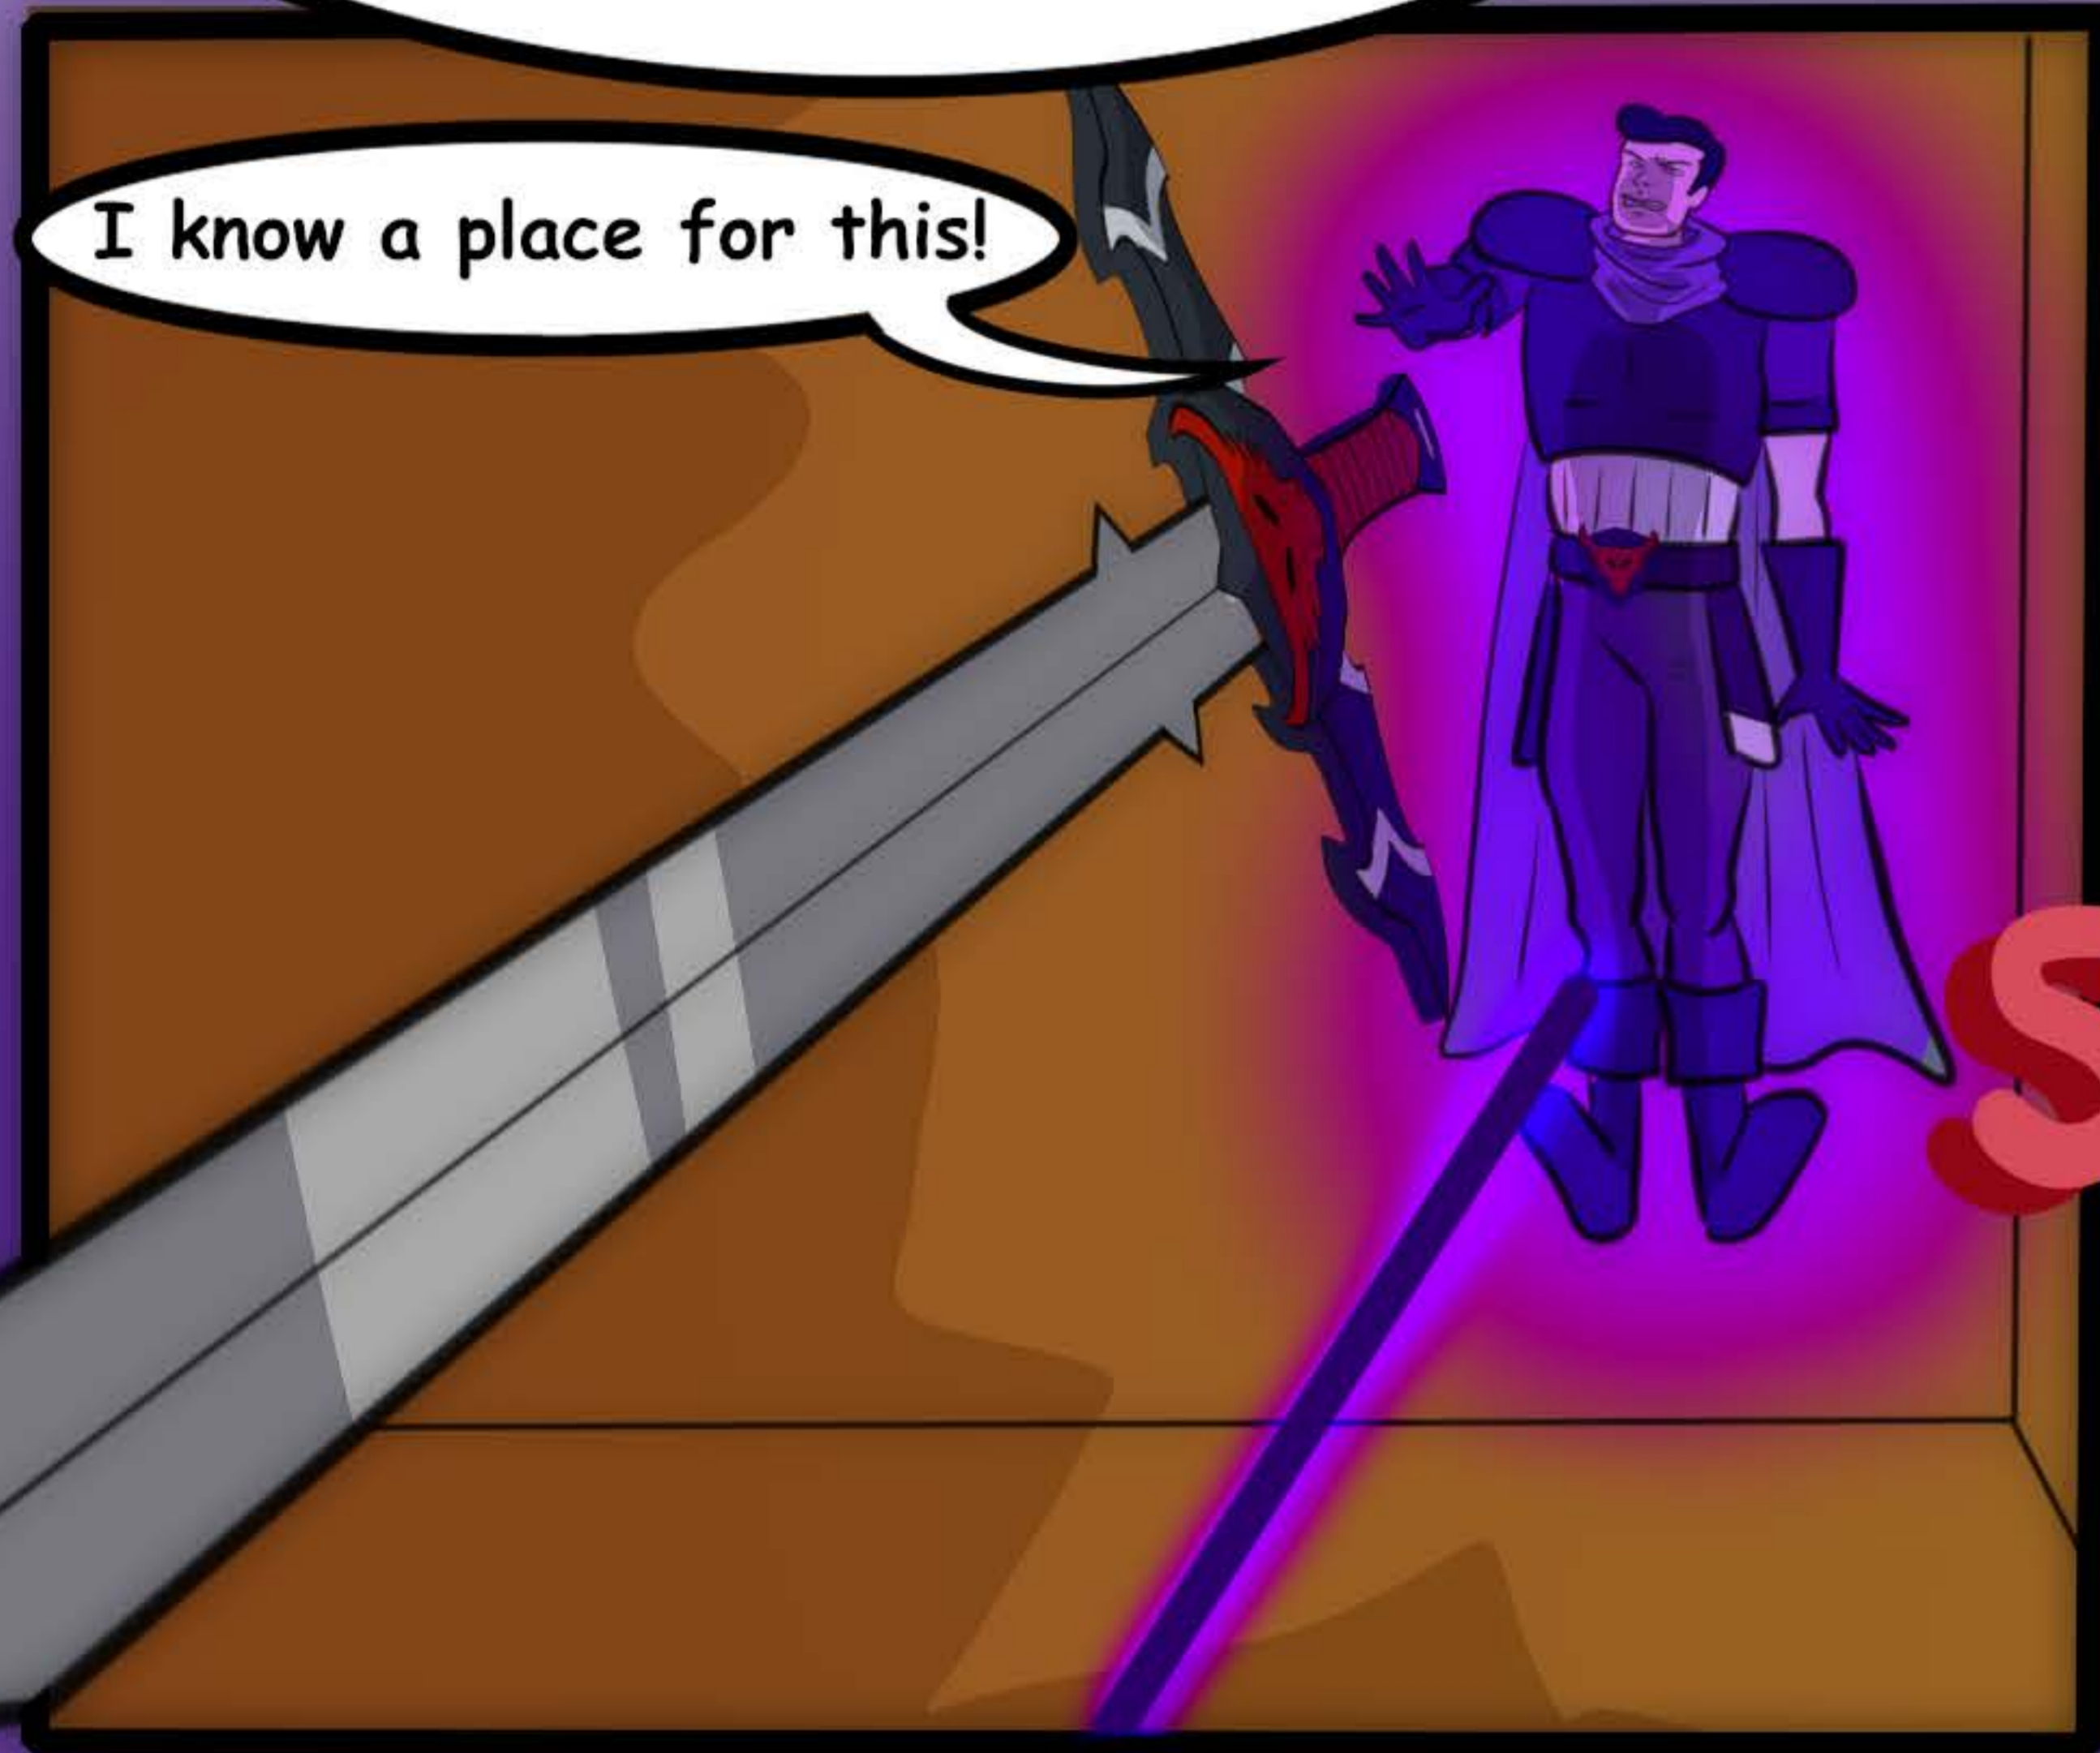

Bowwow!

Before you both die, it would be enlightening to know that if you, and those like you, just accepted their roles in this world, to serve greater men such as myself, all this unpleasantness could have been avoided.

Cretins such as you should know their place.

I know a place for this!

SLOK!

Oh dear!

Ah, don't worry. Wearing a hat like that, I'm sure that's not the only long, pointy thing he's had in his mouth.

What's important is that we have rid the world of a dark and evil man!

Gold... Mmmmm...

The next morning...

What a beautiful day! All the more wonderful because of the three bags of coin and the chest of gold! All that is needed now is to book passage to Xorath, and then my keep in the mountains awaits!

And a giant oval-shaped makeup mirror ringed with gold and jewels! And...

Don't we need more gold than that? I want a big pink four-poster bed like in the fairy tales!

Oh for fuck's sake, you're four inches tall. We'll just get you a shoebox and throw some hay in there or something.

Arrg! I'm going to Hearts of Happiness Butternut and make him hump your leg in the middle of the night!

Ahh, he's not a giant snake so that won't work! So Ha HA!

Well... he'll at least lick your face!

I'll punch him in the face...

Hsssss! Send word to our leader!
WE HAVE FOUND THEM!

The City of Jeslam Port,
The Royal Palace

It was Black Dragon and Pink Firefly,
my Queen. They destroyed all of our
forces on behalf of the sorcerer that
has conquered Shiboloth Forest.

Curse that rogue and his fairy whore!
This is the last time they thwart me!

They kill my dad, kidnap my dog,
and now they ally with sorcerers
invading our kingdom?!? Fuck, Mom!
We need to kill them!

We shall! But first! You, fool hobgoblin!

You were to slay that
sorcerer! How DARE
you disrespect me by
not doing as I command!
OFF WITH HIS HEAD!!!

Come, my daughter. In order
to rid the world of those two
criminals, we must go into the
inner sanctum and meet with... *him*.

Oh no! Not *him*.
He creeps me out!

Silence, child! When I am gone, you shall rule
this kingdom, whether I approve or not. You
must be strong! Do not embarrass me or the
proud and powerful women who came before you!

The Inner Sanctum, deep in the bowels
of the dungeons beneath the palace.

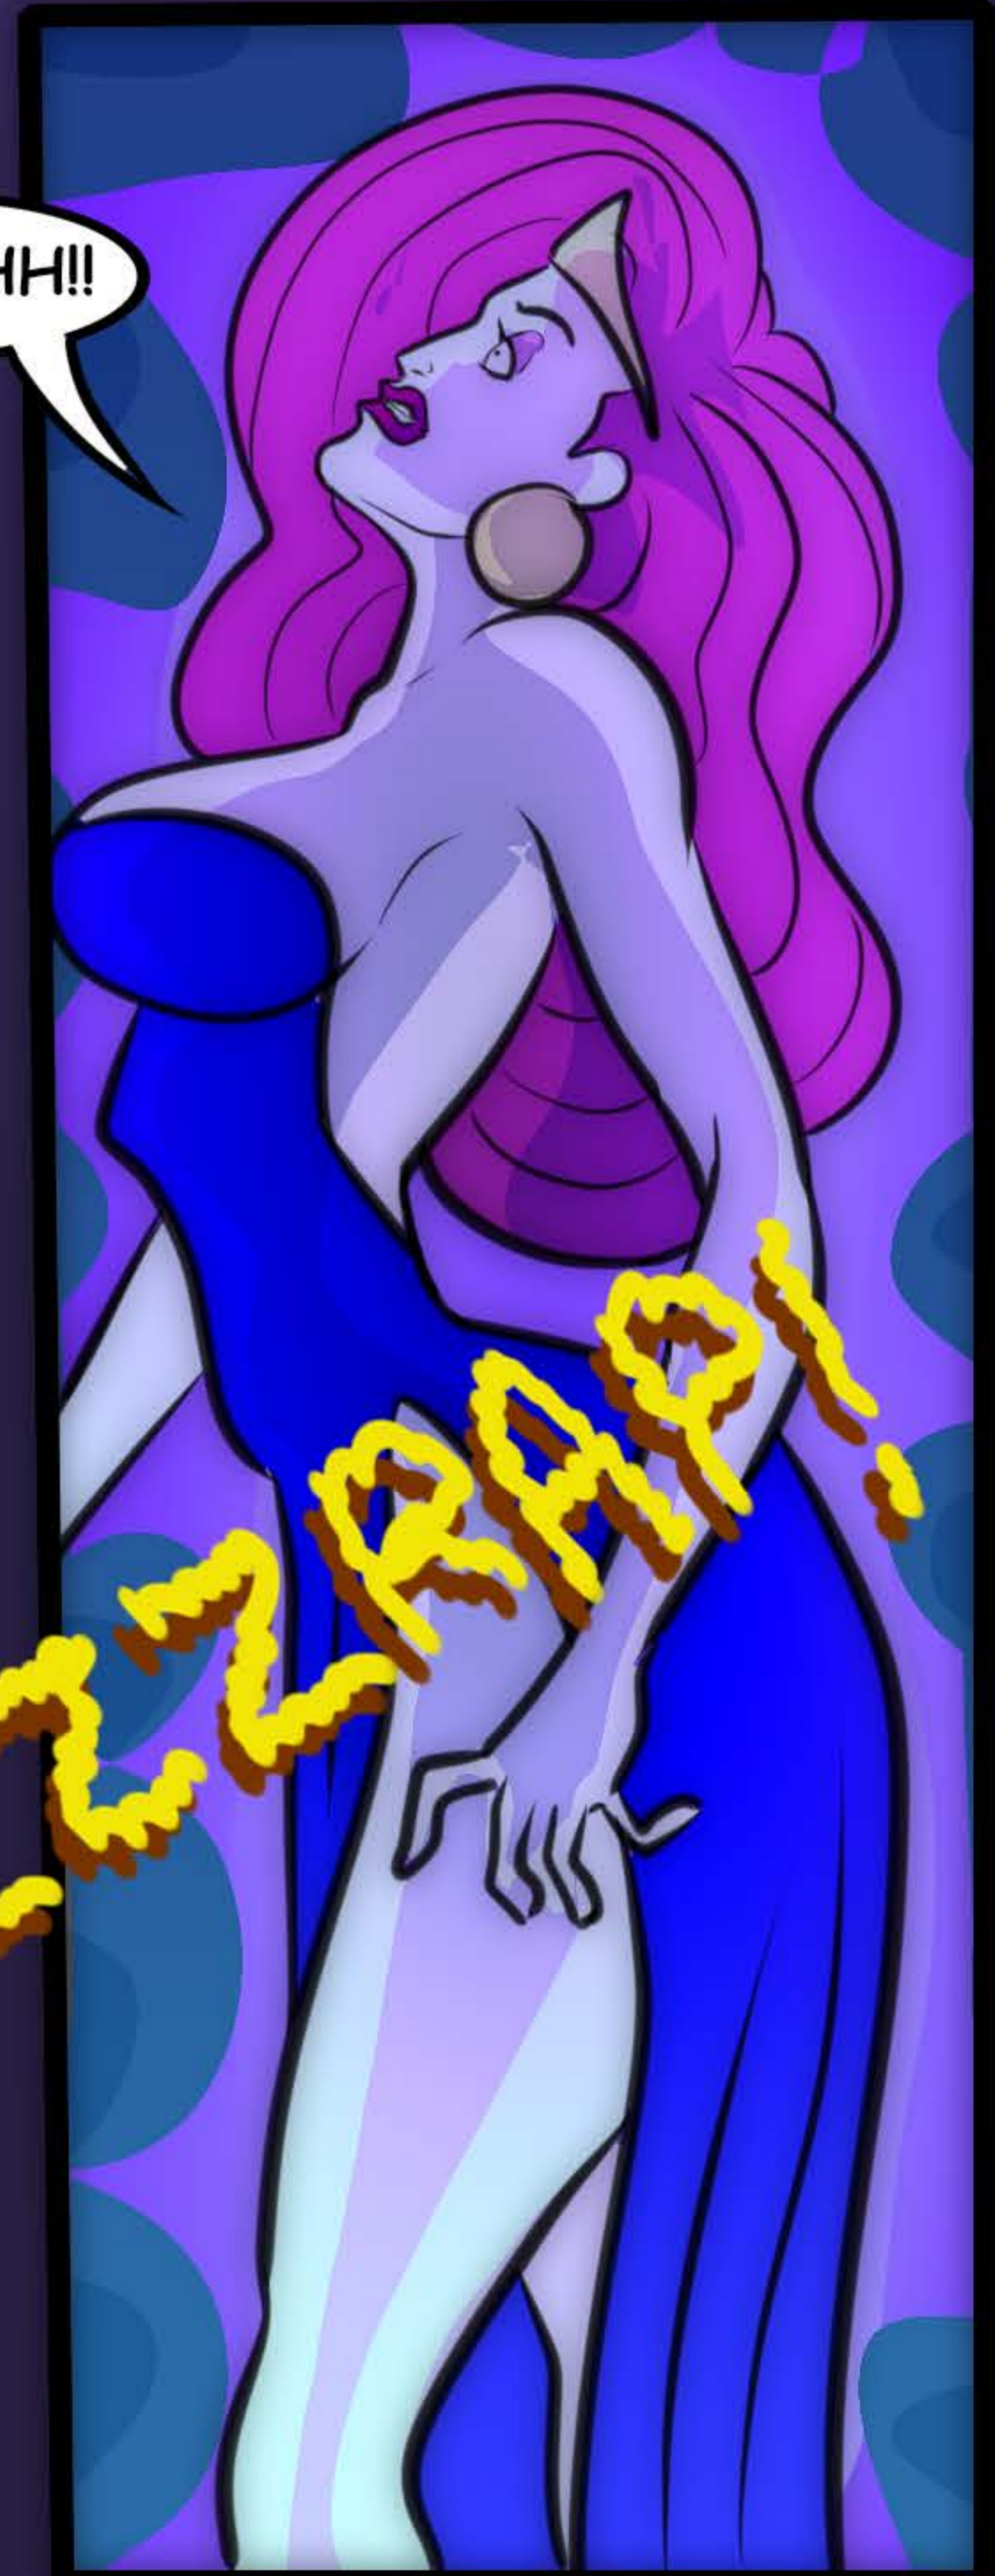

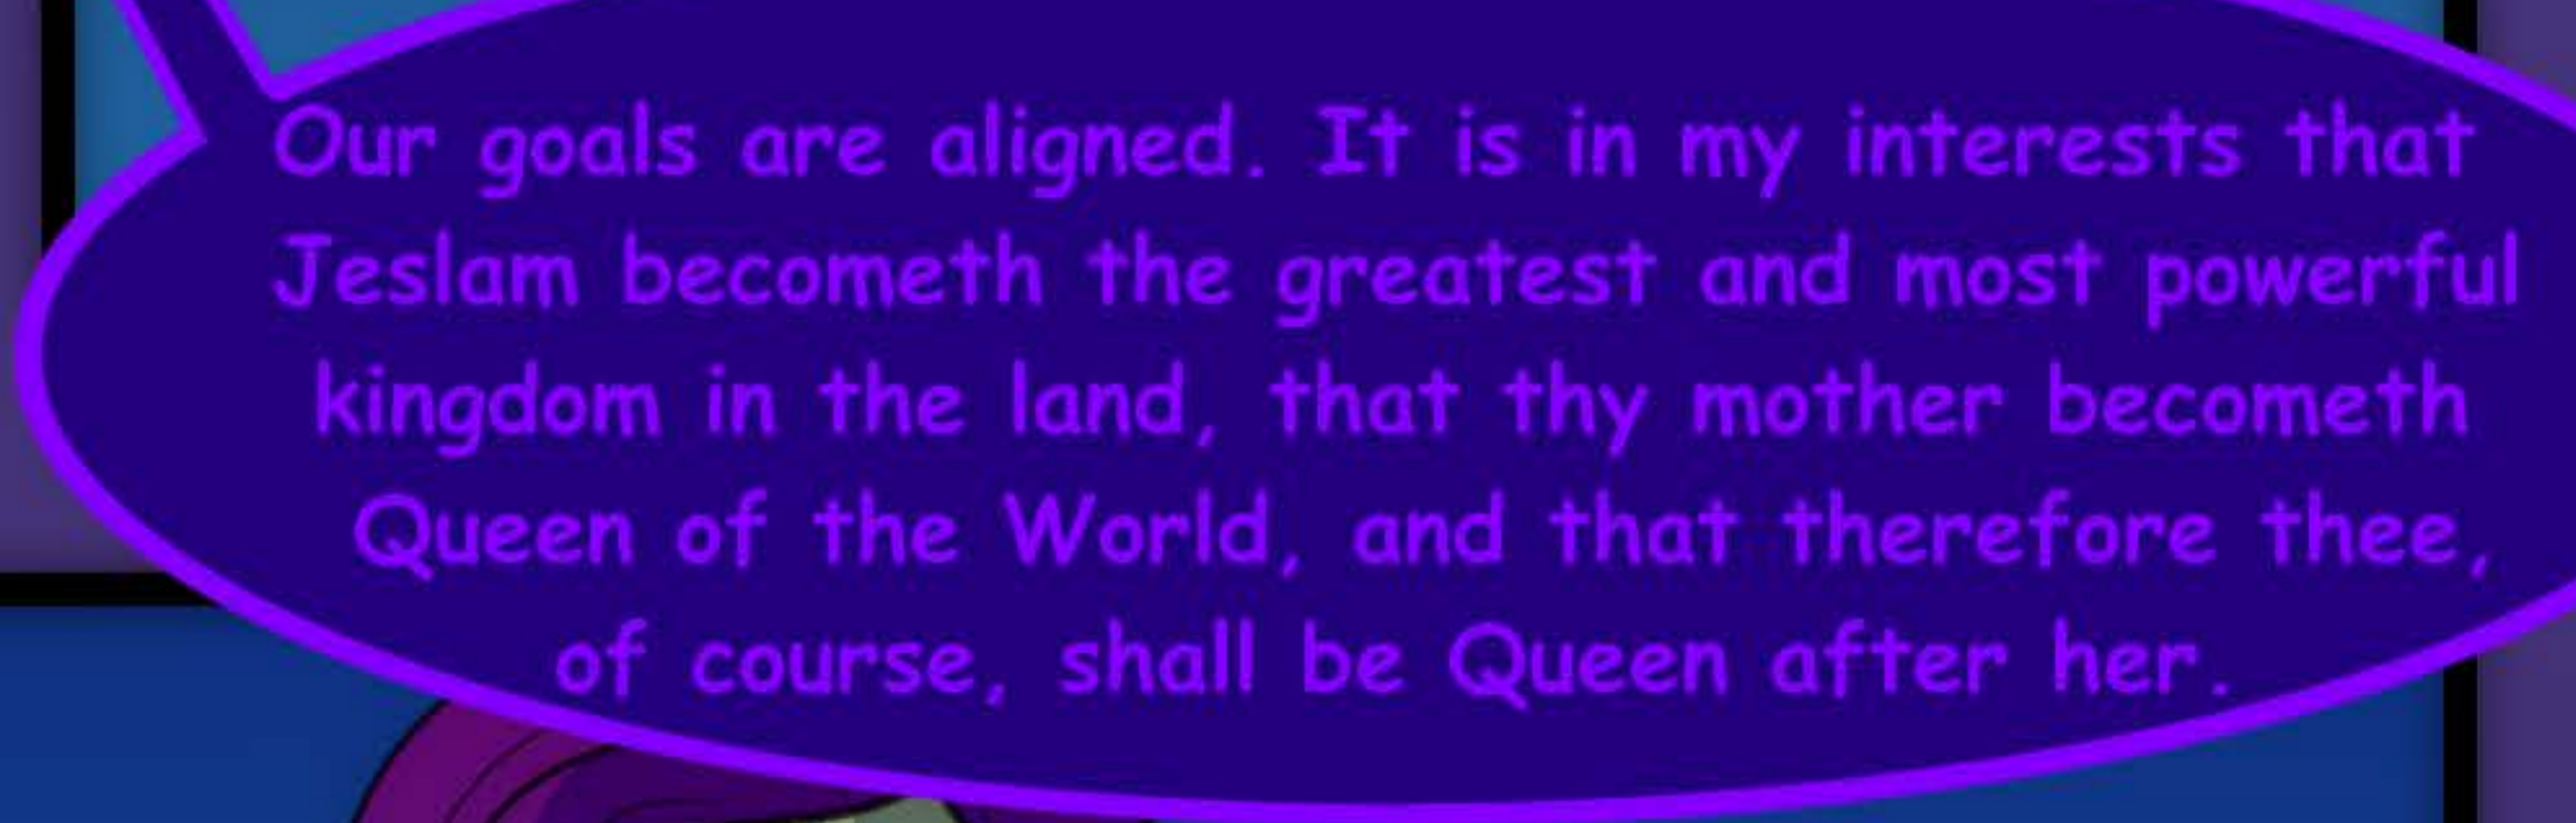

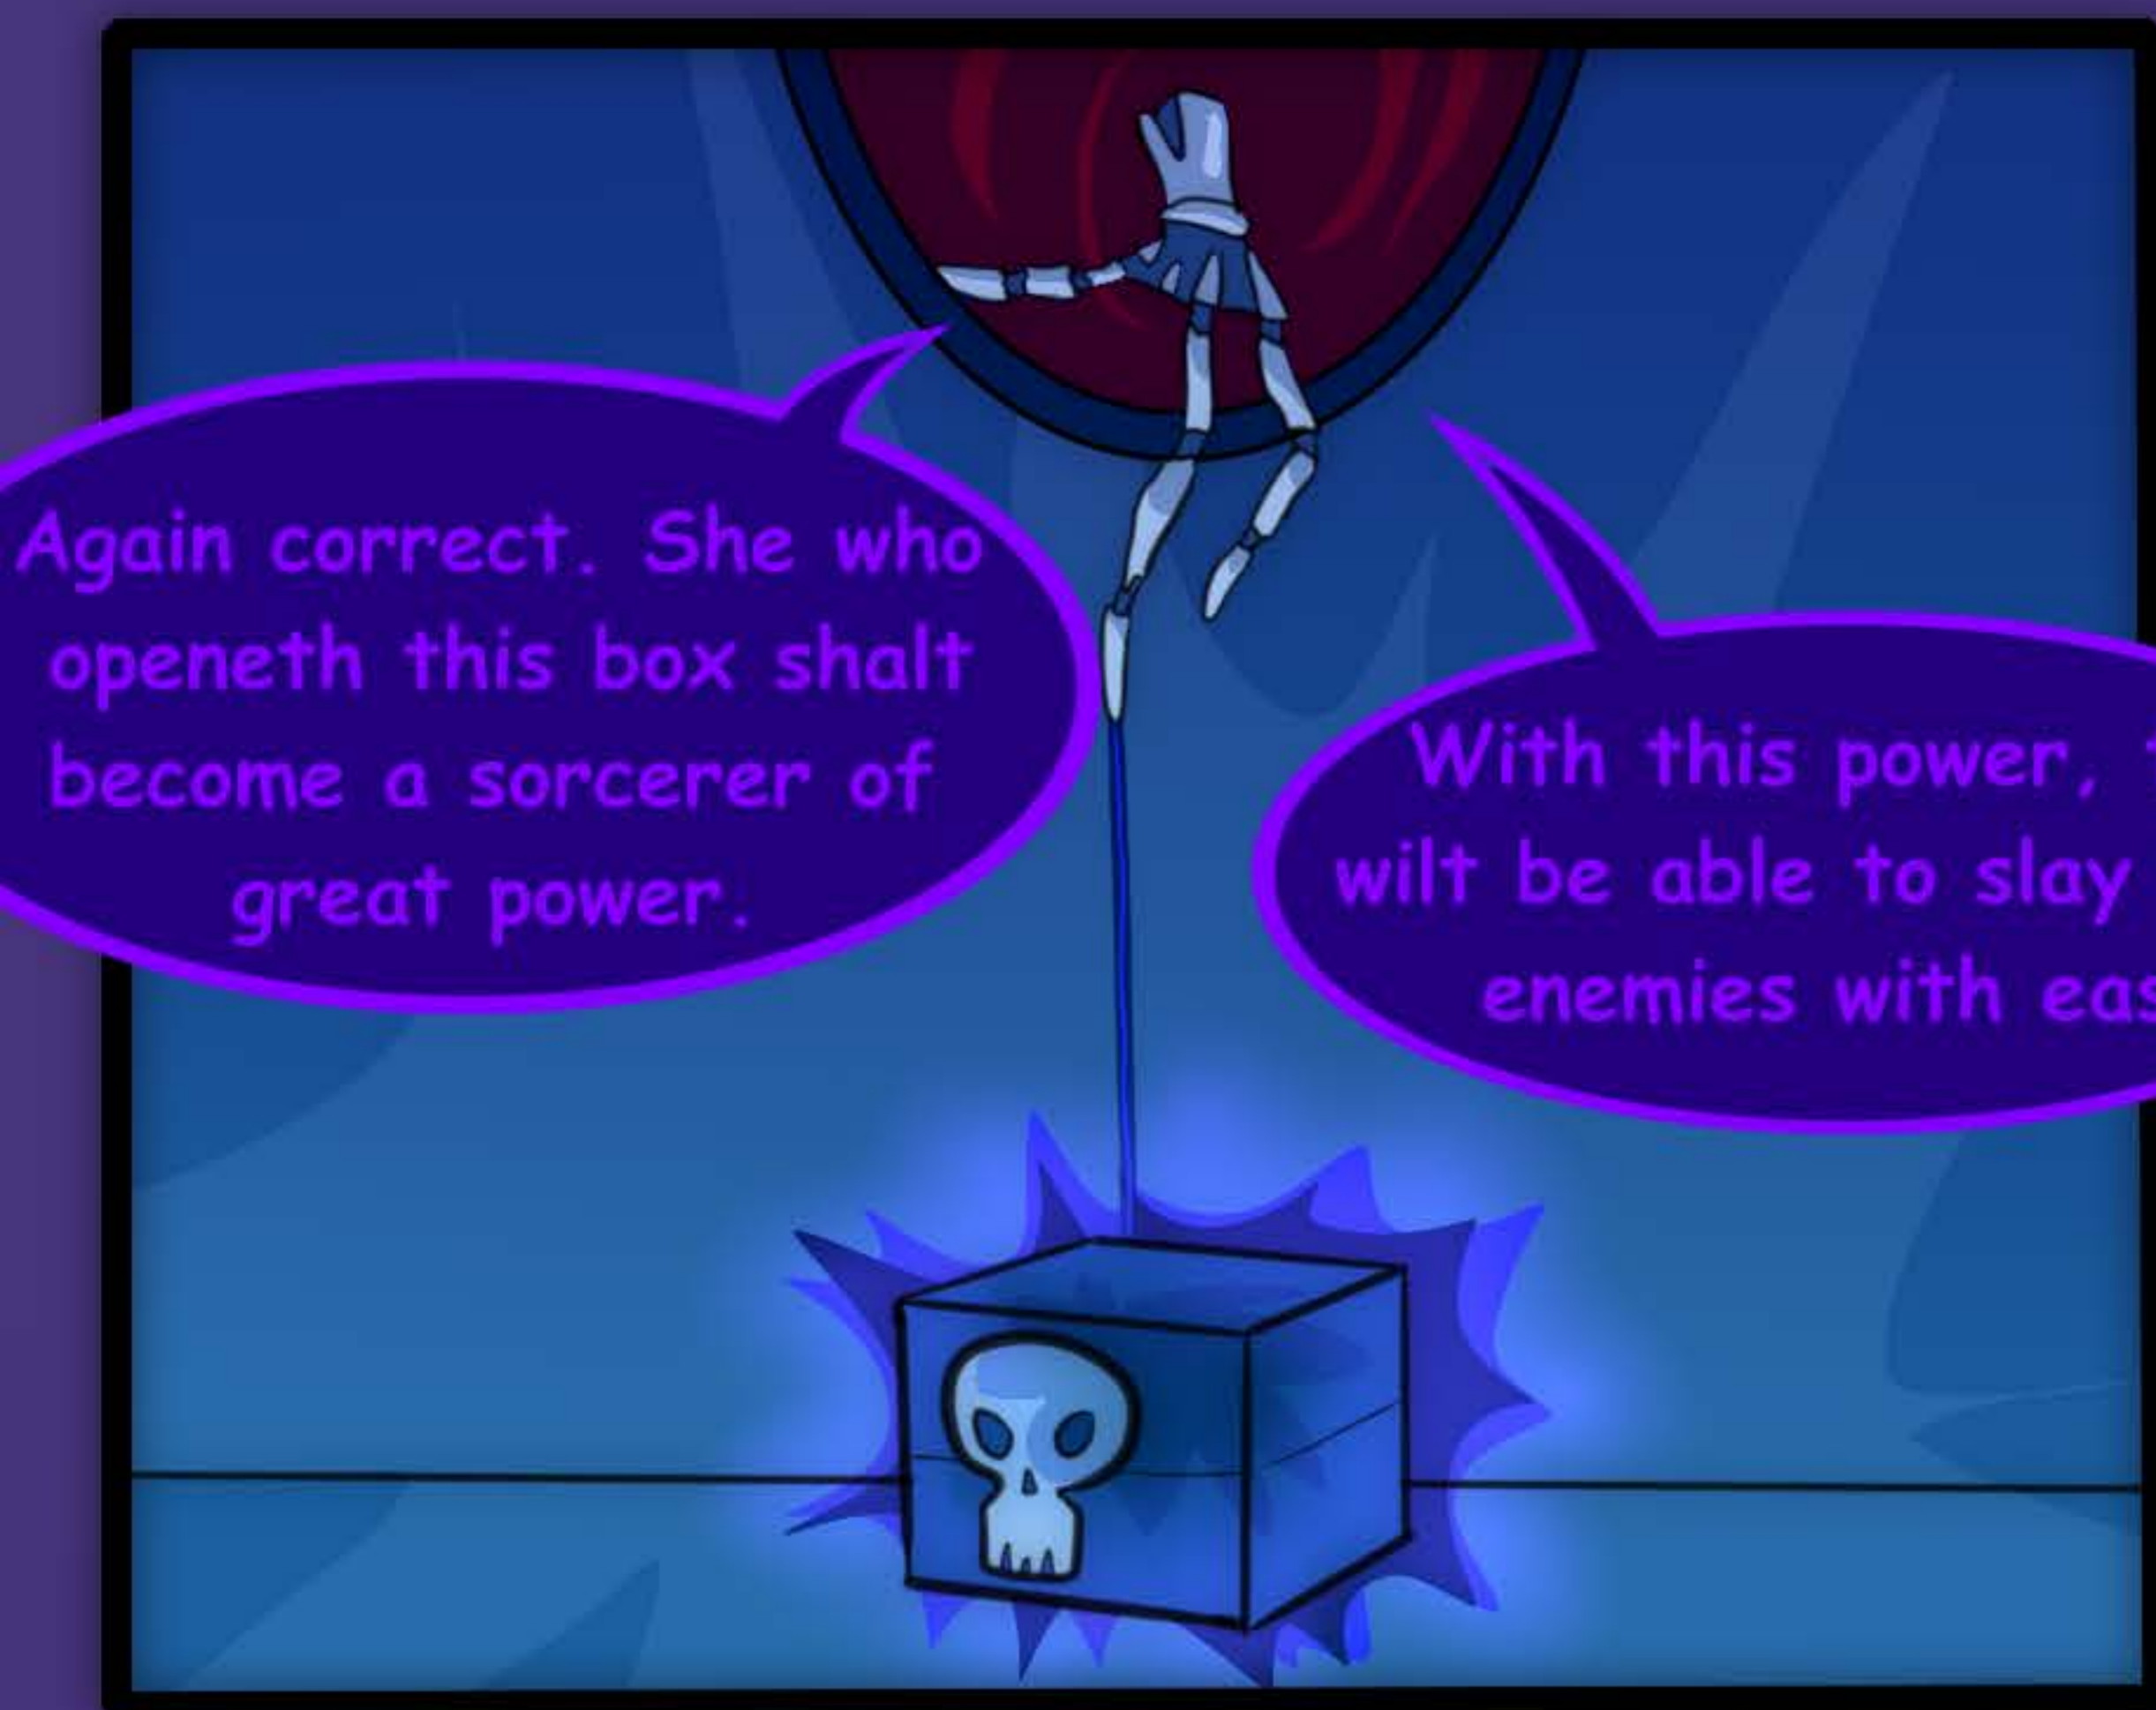

Um...is he here?

Come forth, child! Your fear
and stupidity shames me!

For me?

Indeed. Fear not, child,
for I bringeth thee a gift.

For you, but in the service of me.

This... is amazing! I feel like.. a god!

Excellent! Now you shall go forth and slay Black Dragon and his fairy slave!

Indeed, Queen of the World. None can stop thee now. Destroy thy enemies, expand thy righteous kingdom, and take what is thine. The world needs a ruler like thee...

To be continued...

In a dark and gritty fantasy world, follow the exciting and hilarious adventures of Black Dragon, a smartass mercenary who just doesn't give a shit about anything, and his sexy but nervous fairy companion Pink Firefly, as they battle the forces of evil, conformity and unhappiness.

Astride Runty, his clinically depressed giraffe, and wielding Carl, his +5 Sword of Objectivity, Black Dragon continues his never-ending bloody quest for more bags of gold so he can buy his own castle in the mountains and get away from it all.

Angry trolls, giant snakes, evil hobgoblins, dark forests, crusty old dwarves, arrogant sorcerers, deceit, twists, combat and a distinct lack of roasted chicken with a nice butter sauce. It's all here in the second exciting issue of Black Dragon and Pink Firefly.
